

Birak (first summer)

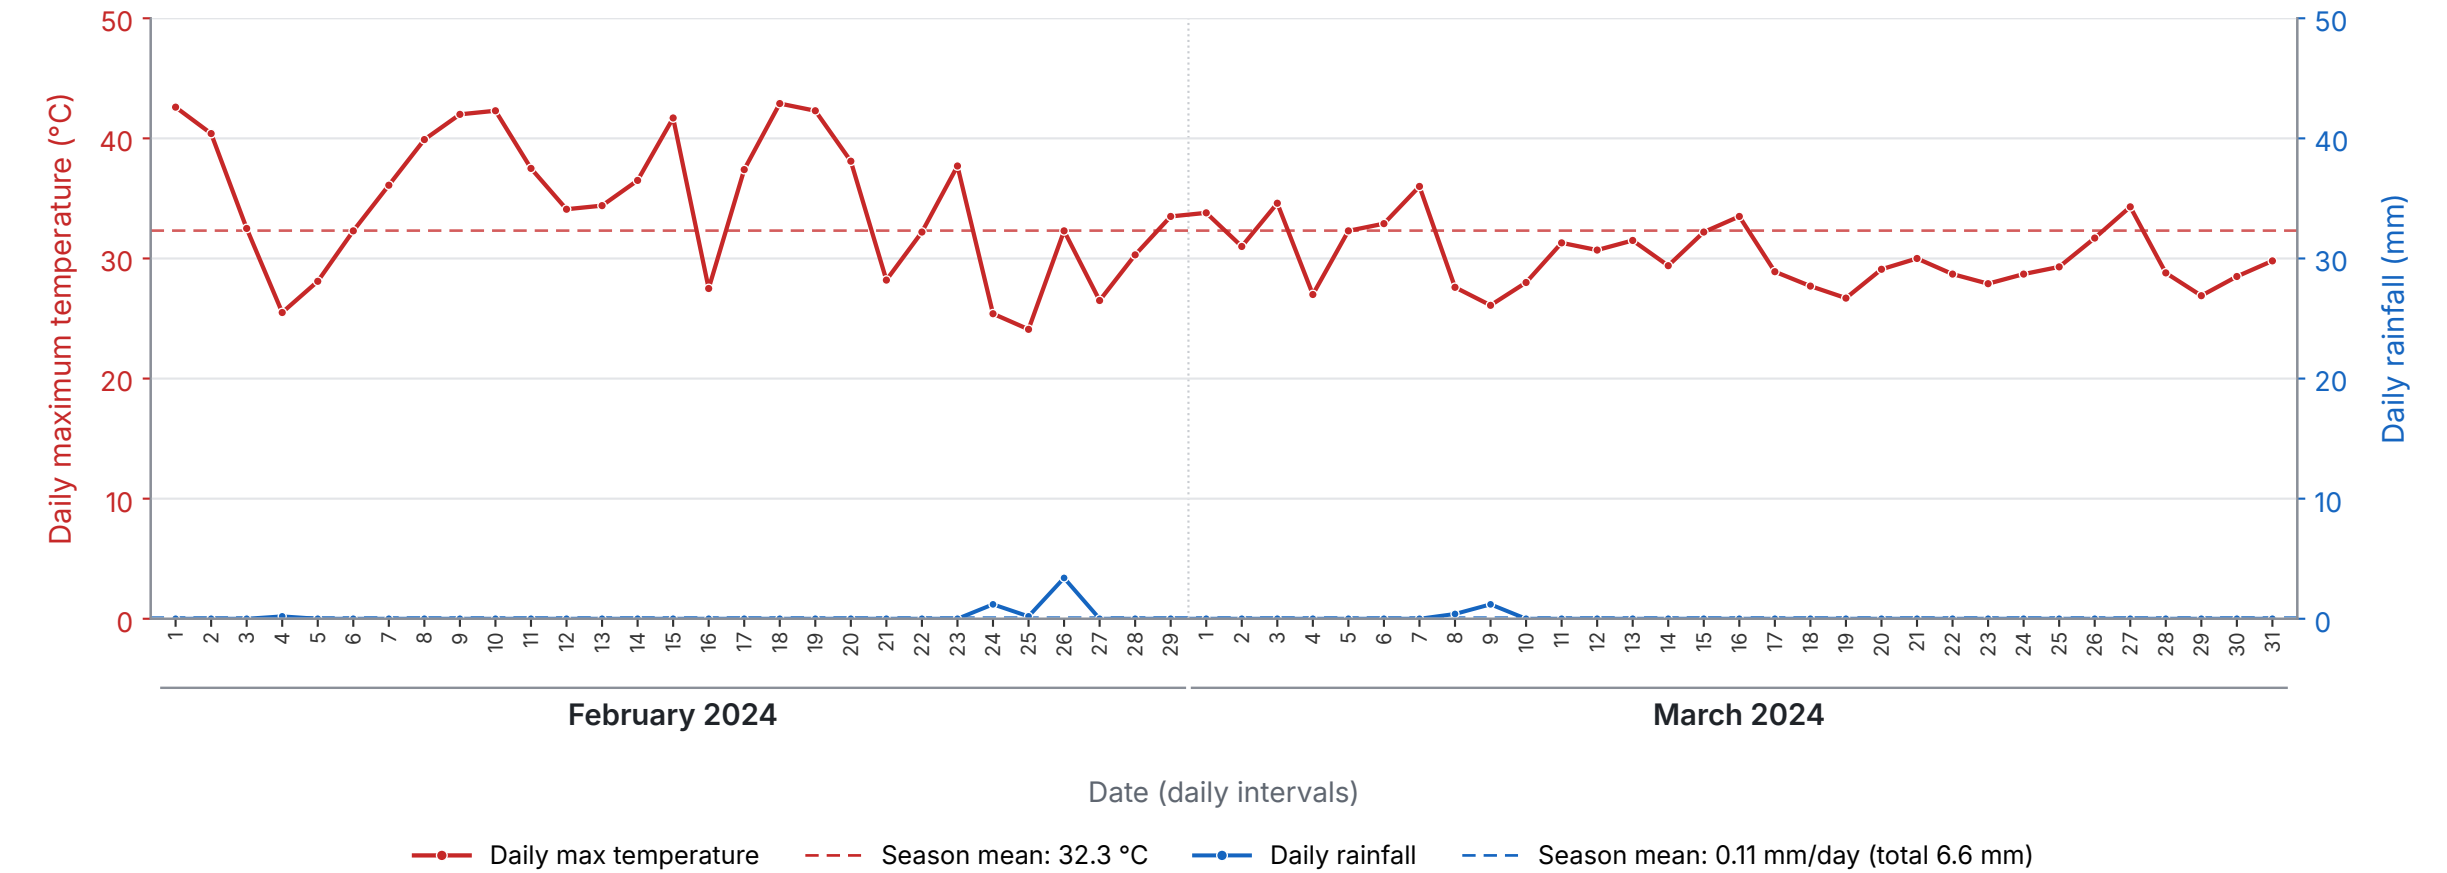

Daily maximum temperature and rainfall, Perth Metro, 1 Dec 2023 – 31 Jan 2024

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.

Bunuru (second summer)

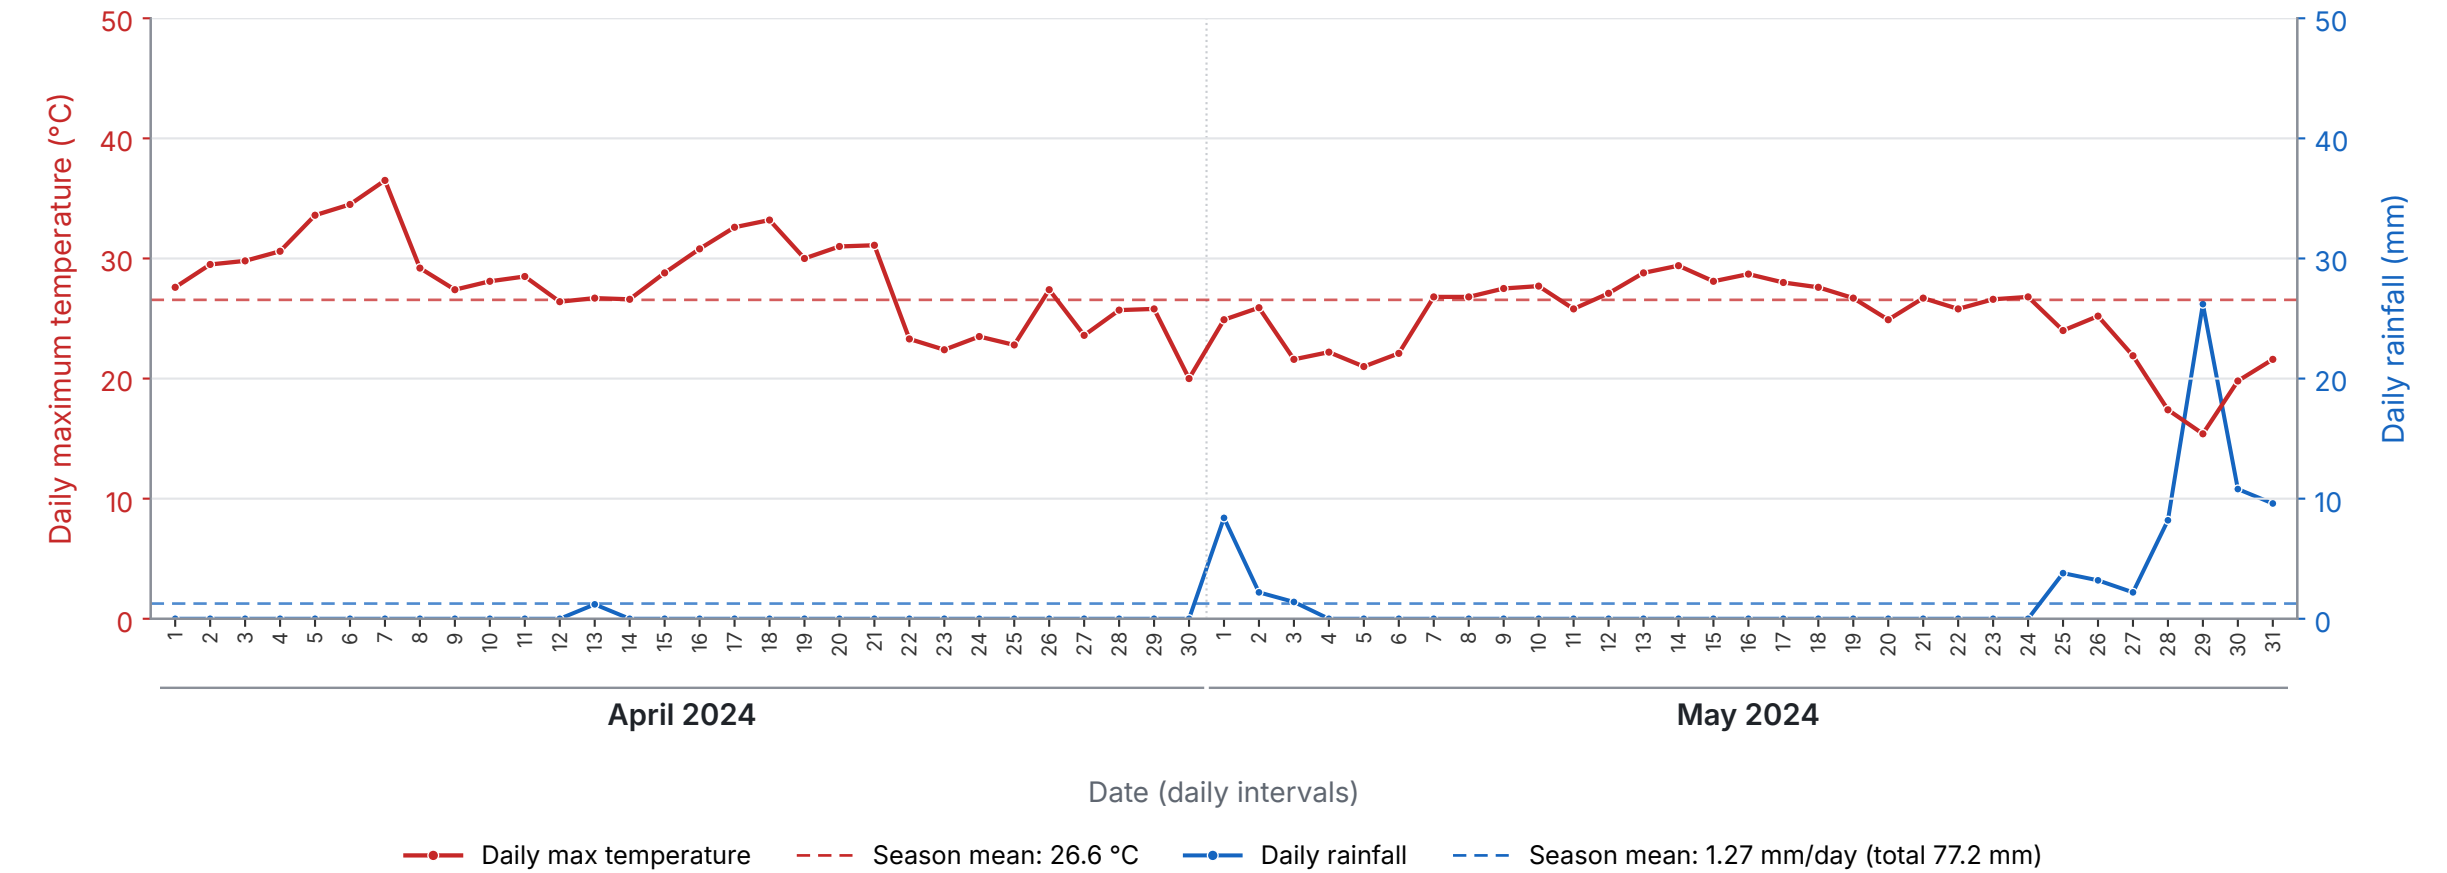

Daily maximum temperature and rainfall, Perth Metro, 1 Feb 2024 – 31 Mar 2024

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.

Djeran (autumn)

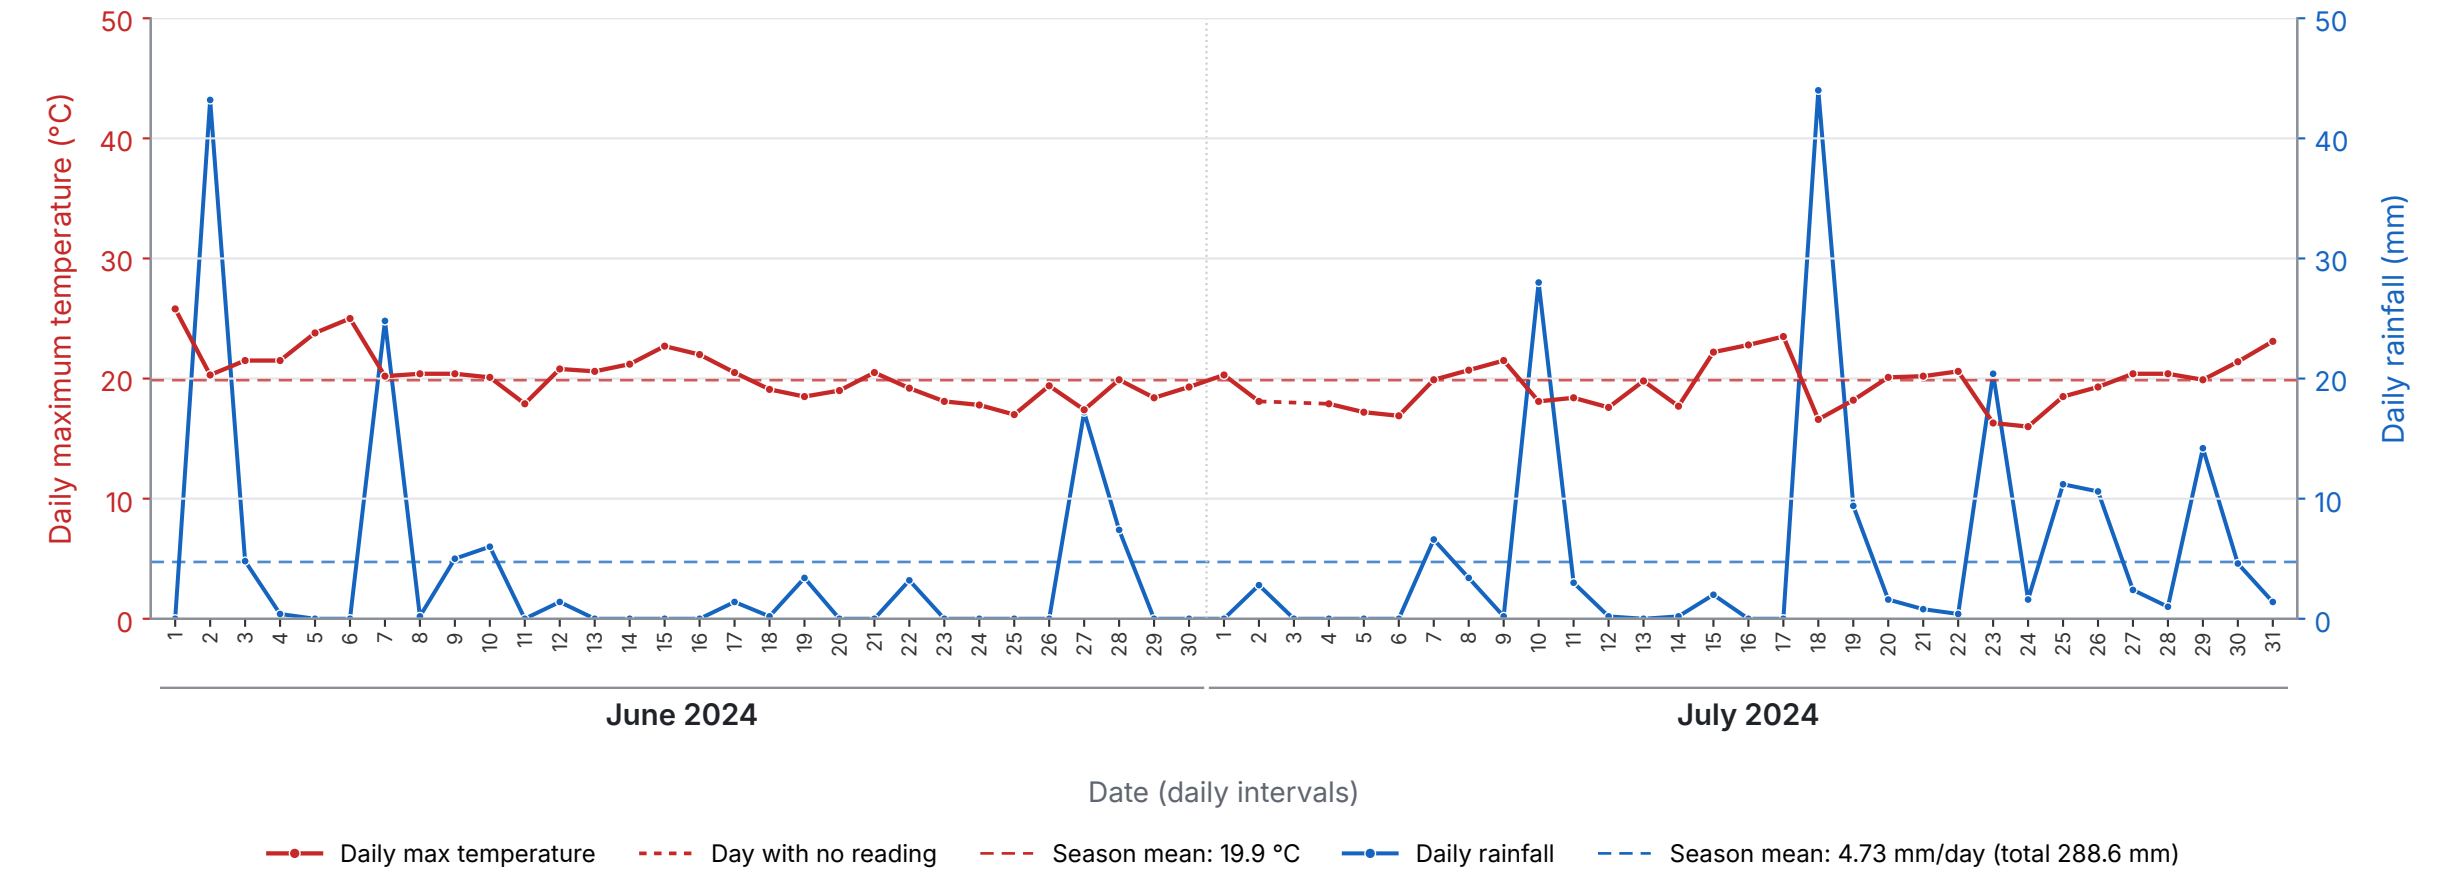

Daily maximum temperature and rainfall, Perth Metro, 1 Apr 2024 – 31 May 2024

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.

Makuru (winter)

Daily maximum temperature and rainfall, Perth Metro, 1 Jun 2024 – 31 Jul 2024

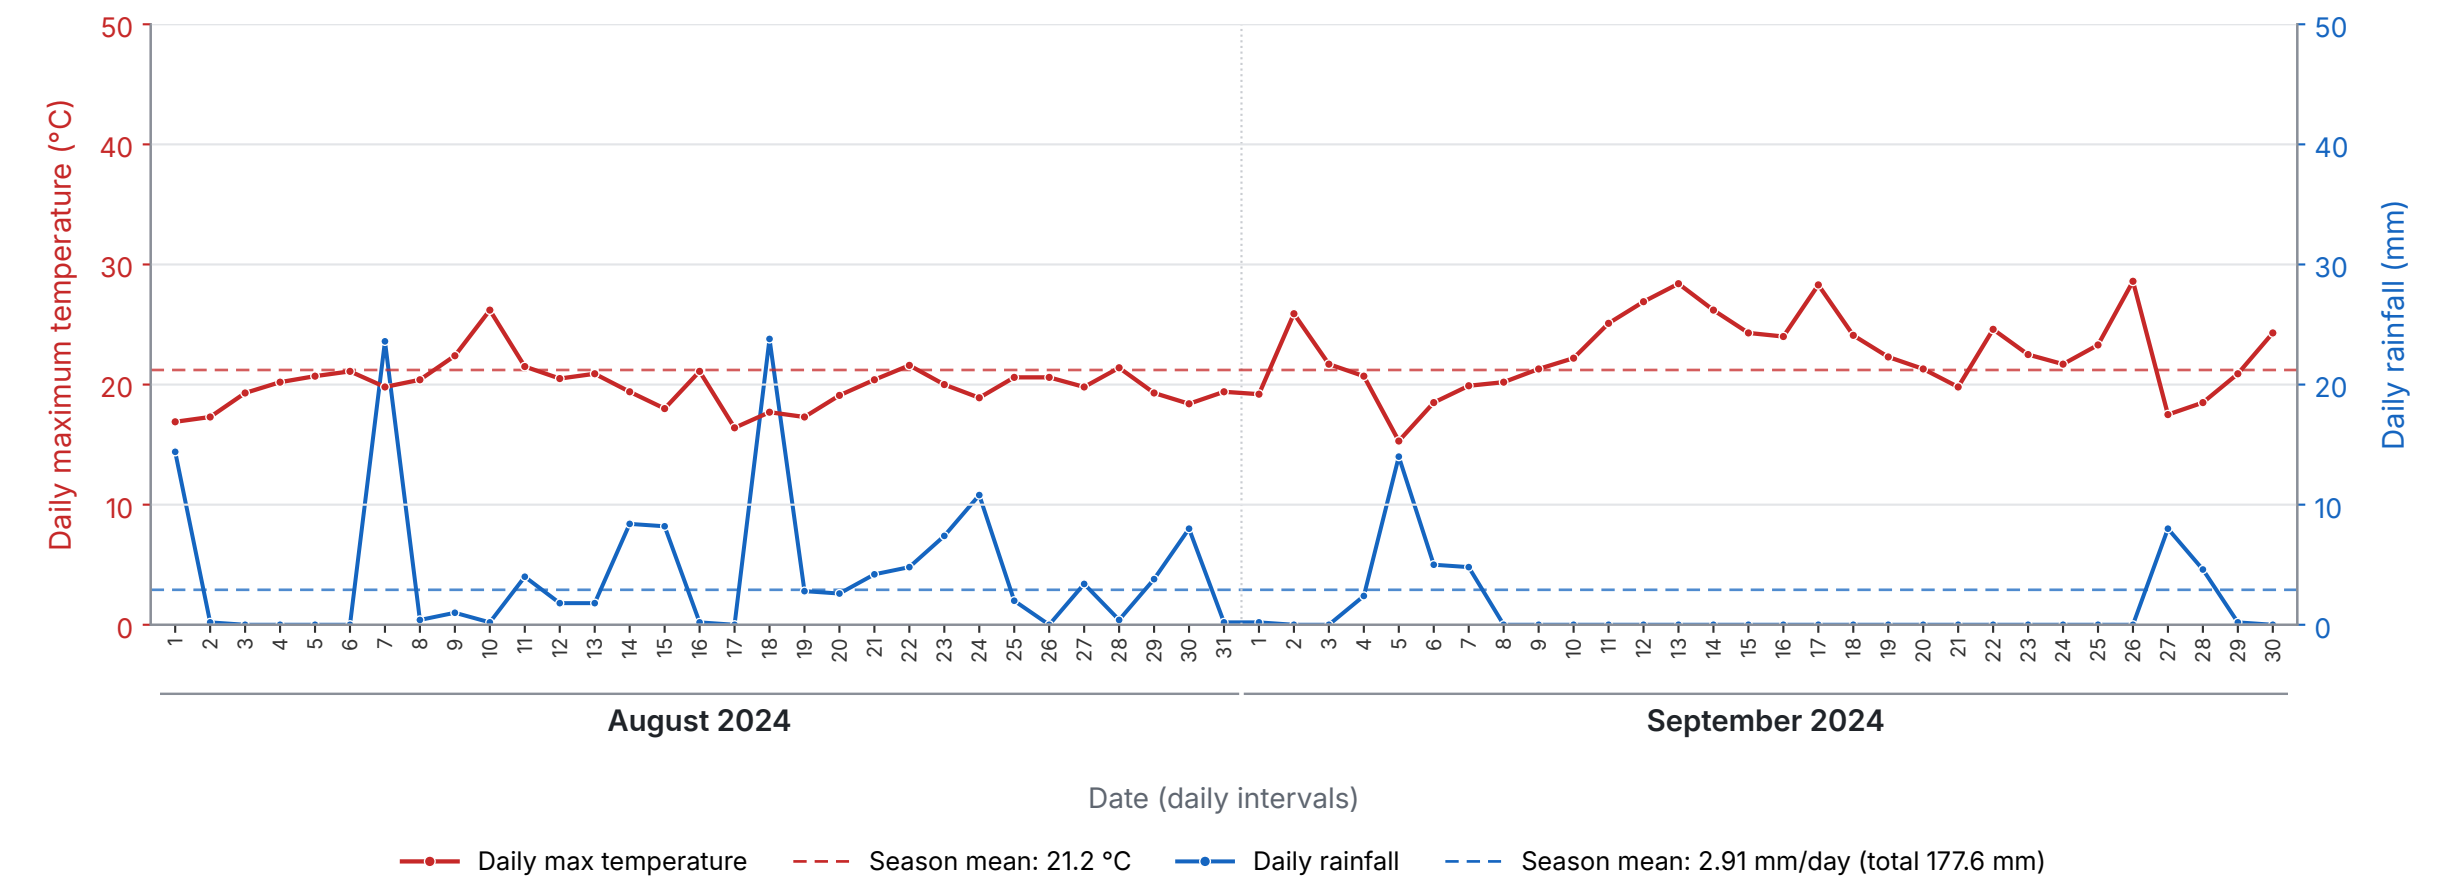

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.

No temperature reading on 3 Jul 2024: the dashed segment simply joins the adjacent days; no value was estimated and the day is excluded from the mean.

Djilba (early spring)

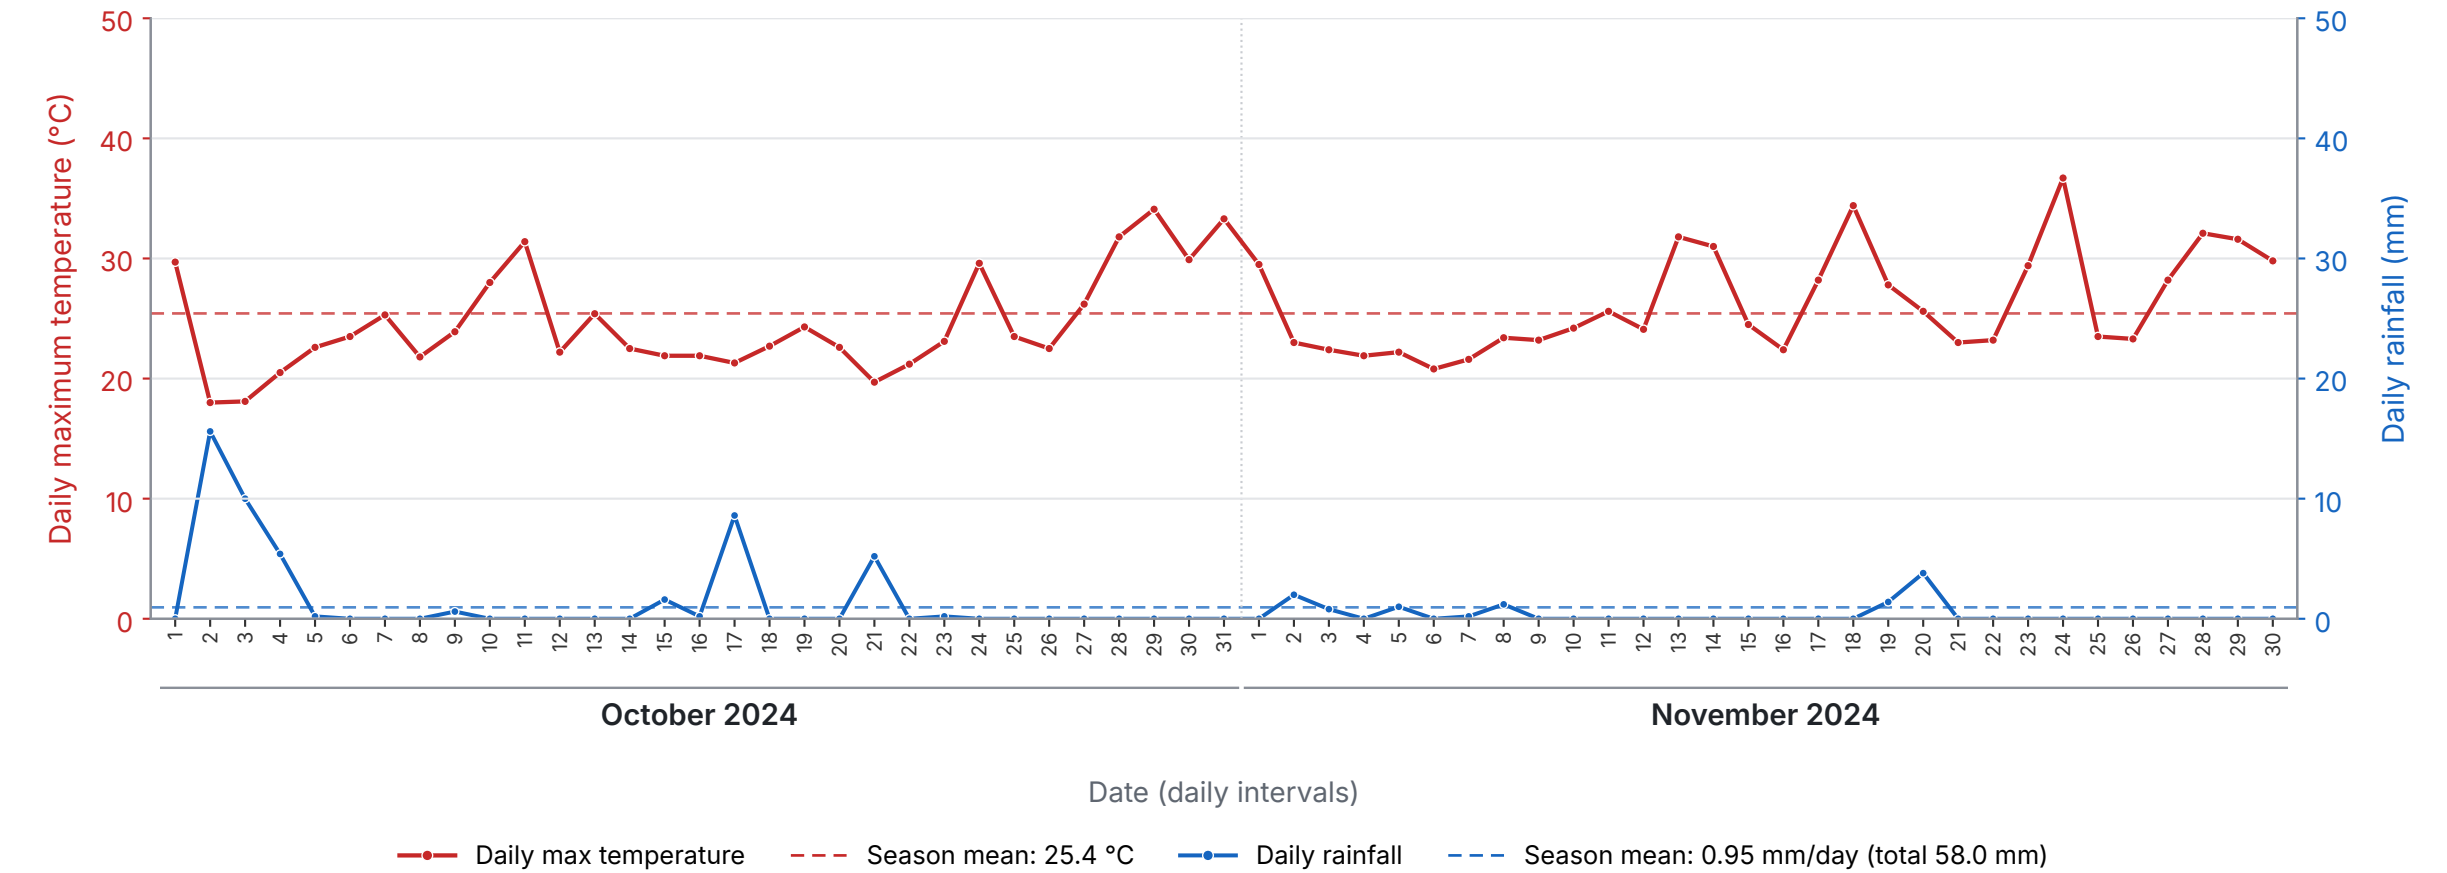

Daily maximum temperature and rainfall, Perth Metro, 1 Aug 2024 – 30 Sep 2024

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.

Kambarang (late spring)

Daily maximum temperature and rainfall, Perth Metro, 1 Oct 2024 – 30 Nov 2024

Source: Bureau of Meteorology, Climate Data Online; Perth Metro, station 009225 (daily maximum temperature IDCJAC0010; daily rainfall IDCJAC0009). Dashed lines show the mean over the period plotted.
